

Min Htet Moe Yan

Profile

A versatile and results-driven professional with a strong foundation in both front-end development and enterprise IT. I am proficient in creating modern, responsive user interfaces using React, HTML, CSS, and Tailwind CSS. My experience also includes developing low-code business applications with the Microsoft Power Platform (Power Apps, Power Automate, Power BI) and managing IT infrastructure with SharePoint, Windows Server, and Entra ID. I am adept at bridging the gap between design and robust back-end systems to deliver comprehensive solutions.
